Frisbie  Center for Cancer Care

11 Whitehall Road • Rochester, NH 03867

www.frisbiehospital.com

Located on the third floor of Frisbie Memorial Hospital, the Frisbie Center for Cancer Care provides services for adults in the diagnosis and treatment of various cancer and blood conditions.

To name a few:

- General oncology
- Lung cancer and mesothelioma
- Melanoma
- Breast cancer
- Gastrointestinal cancers
- Genito-urinary cancers
- Head and neck cancers
- Lymphomas (Hodgkin's and non-Hodgkin's)
- All solid tumor cancers
- Prostate cancer
- Multiple myeloma
- Adrenal cancer

Treatment:

We provide all chemotherapy on-site and all supportive care for patients receiving treatment for their cancers or blood disorders at our newly renovated infusion room at Frisbie Memorial Hospital. We offer general anesthesia for bone marrow biopsies.

Research:

We offer enrollment in the latest national research studies through Dartmouth-Hitchcock Medical Center, CALGB (Cancer and Leukemia Group B), and CTSU (Cancer Trials Support Unit).

Genetic counseling:

Through our affiliation with Dartmouth-Hitchcock Medical Center, we can also provide assistance for patients seeking genetic counseling.
