

VISITATION POLICIES

General Visitation:

- Limited to no more than *two* visitors at a time.
- Children will be allowed to visit **but** must be accompanied by an adult and **are not** allowed on the Intensive Care Unit (ICU).
- All visitors must prescreen themselves for influenza-like illness as they enter the building (fever, sore throat and/or cough, nausea, vomiting or diarrhea). If you have any of these symptoms, you are asked not to visit.
- Prior to visiting a patient, please wash your hands with soap and water, or use the hand sanitizers that are located throughout the facility.

Frisbie recognizes that there may be certain circumstances when a visitor with influenza-like illness or other infection will need to visit a loved one. These circumstances will be dealt with on a case-by-case basis in collaboration with the Nurse Manager and Infection Prevention.

It's about People. Technology. Trust.
